

PERFECTLY FORMED PERFECTION.  
CREATING QUALITY TOGETHER.

Spritzgussa **Plastics**

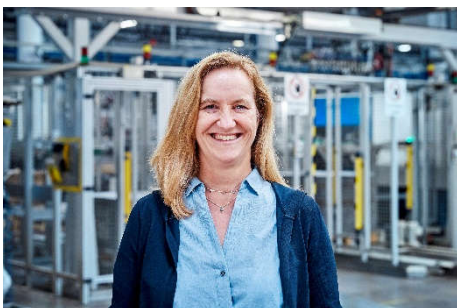

# MADE IN BADEN-WUERTTEMBERG

ARE YOU ON THE LOOKOUT FOR RELIABLE SUPPLIERS OF HIGH-QUALITY, THIN-WALLED PLASTIC INJECTION-MOULDED PARTS?

In that case you ought to get to know us. Spritzgussa Plastics GmbH is based in quaint Wannweil near Stuttgart. For more than 50 years now, we have been offering customised solutions for your ideas and products, and are one of the leading suppliers in Baden-Wuerttemberg for high-quality, thin-walled injection-moulded parts and customised plastic items.

As a privileged supplier, we manufacture packaging, receptacles, closures, cases, cans and technical parts in a three-shift system for leading national and international companies in the food, packaging cosmetics and pharmaceutical branches.

In doing so, everything from the initial spark to production and delivery comes from one source. In our 12,000 m<sup>2</sup> of tempered storage space, we store your products safely until just-in-time delivery. Short decision paths mean that we can react very quickly and flexibly to your wishes.

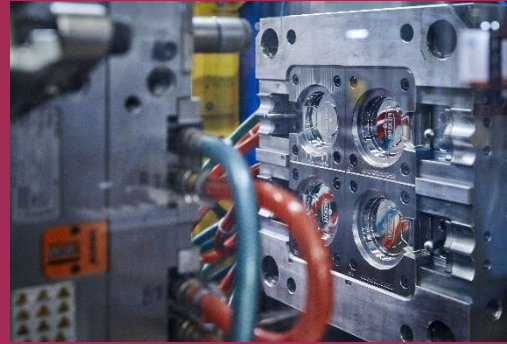

# WE ARE SPRITZGUSSA.

THE FACT THAT WE ARE CREATING SOMETHING FOR THE FUTURE MAKES US PROUD, STRENGTHENS OUR FEELING OF TOGETHERNESS AND DELIGHTS OUR CUSTOMERS.

The secret to our reliability is our motivated, keen, flexible and loyal staff. Many of our employees have been committed “**Spritzgussians**” for years or even decades now. Whoever joins the team usually stays with us; in fact our fluctuation rate is extremely low. We neither have short-term contracts nor temporary work, and we continually educate our employees. Our staff cherish the cooperation, the family atmosphere and our mutual respect, factors which propel us in our activities.

THE KEYWORD  
SUSTAINABILITY.

Sustainable business activity has come naturally to us long before “Sustainability” became an economic factor. As a traditional Swabian medium-sized company, the sustainable virtues of diligence, economy and a down-to-earth manner practically run through our blood. Our conscientiousness, honesty and team spirit motivate our employees, delight our customers and cater for healthy economic growth.

Our customers are very demanding, and place high emphasis on safety, quality, compliance with norms, traceability, choice of materials (e.g. bioplastics), material input and just-in-time delivery. With our state-of-the-art production technology and certified standards and our competent, experienced and keen Spritzgussa team, we develop, manufacture and deliver high-quality products to the utmost satisfaction of our customers.

Our recipe for success is sustainable customer loyalty. Our customers value our 100% reliability, and pay us back with long-term loyalty, because they know what we are to them: a quality-conscious, responsible and sustainable partner.

# TEAMWORK

## CREATING QUALITY TOGETHER.

“For six years now I have been responsible for a trouble-free manufacturing process. As a confirmed “Spritzgussian” and experienced production manager, I make sure all employees adhere to the legal norms and our high standards of quality, and eagerly carry out their work. Thanks to proven and optimised procedures, our manufacturing is very precise and exceedingly efficient, factors which ultimately are of benefit to our customers.”

*Jochen Bartl, production manager*
